

# Spring Is Here, But Are You Ready to Partake of Pleasures Offered

Trutona Is Daily Winning Unstinted Praise From Hundreds For Overcoming, Tired, Draggy, "No-Account" Feeling So Prevalent During the Present Season

Does the coming of Spring with all its pleasures mean anything to you?

"That all depends," may be your answer and admittedly, "it all depends"—it all depends upon whether or not your system has withstood the exacting siege of winter that leaves in its wake so many thousands of people with completely run-down systems.

In fact, conspicuously in the minority are those who have completely avoided the ravages of winter maladies. True, there are thousands who were successful in warding off attacks of influenza and still more thousands who escaped pneumonia, but WHO IS THERE THAT DID NOT EXPERIENCE AT LEAST ONE HEAVY WINTER COLD DURING THE PAST SEASON? Remember, only second in severity to pneumonia and influenza, is the heavy, winter cough or cold.

Like pneumonia and influenza, winter coughs and colds tend to weaken and materially affect almost every vital organ of the body. People who have suffered a heavy winter cough, yet feel that their systems have escaped the strain of winter weather, are sadly mistaken. If they could but grasp the facts, they would not wonder why they

feel so tired, sluggish, lifeless and generally out-of-fix, when they know they should be full of "pep" and vitality, in perfect harmony with the invigorating breezes and snappy weather of Spring.

Thousands of people are now taking Trutona, the Perfect Tonic, to overcome this weakened physical condition so prevalent at the close of winter and hundreds of public statements now being made daily, prove that none has been disappointed in Trutona as a reconstructive agency, system purifier and body invigorant.

Trutona does its work quickly. It speedily attacks the impurities in the blood that might, if left alone, bring serious results. It rebuilds broken-down tissues, strengthens the nerve centers and produces digestion and assimilation of food, at the same time throwing off any decayed matter that may have accumulated. In short, Trutona thoroughly and efficiently tones up every organ of the body and gives your physical being the vigor and vitality, which alone can place within your reach the many pleasures which spring offers to the healthy man and woman.

Trutona is sold in Paris at Varden & Son's, Druggists. (adv-2t-T)

## RODMAN TAKES ISSUE WITH SIMS.

WASHINGTON, April 12.—Testifying Wednesday at his own request before the Senate Committee investigating the Sims-Daniel row, Admiral Hugh Rodman, commander in chief of the Pacific Fleet, took direct issue with Admiral Sims' charges and criticism.

Admiral Rodman denied categorically the charge that the Navy entered the war without plans or policies, that it was unprepared to fight, or that it was a mistake to attempt to direct naval operations from Washington. The admiral said he appeared through a sense of duty and to "defend the good name of the navy" the work of which in the war he praised.

Admiral Rodman declared that never in his more than forty years of service had the fleet been in a better state of preparedness than in the spring of 1917. Some types of vessels were lacking, he conceded, notably battle cruisers and scout cruisers, but generally speaking the Navy "was ready to fight."

Without any attempt to avoid personal references, Admiral Rodman characterized as "very indiscreet," the Sims letter to Secretary Daniels, which brought the present investigation, and declared that Sims committed a breach of confidence in making public "an intimate and confidential conversation which should have been held sacred."

He was referring to Sims' statement that Admiral Benson had told him just before leaving for London "not to let the British pull the wool over your eyes."

The charge that the Navy entered the war without plans or well-defined policies was not correct, Admiral Rodman testified, adding that experience on the general board had given him opportunity to help prepare such plans, anticipating the probable advent of the United States into the war.

## WHY BE DULL AND LAUGID THIS SPRING?

"Spring Fever" Is Natural, But Not Necessary—It's Due to Sluggish Blood

### KEEP FEELING YOUR HAPPIEST

Purify and Tone Up Your Blood With That Famous Tonic, Pepto-Mangan

Do you seem unable to do any work, to concentrate, to take any interest in things, during wonderful Spring days? Do you feel just useless and "no account?"

Nothing is really the matter, except that, as happens every Spring, your blood is clogged—it is sluggish with poisons from its long Winter fight.

In time, your blood will probably adjust itself. But meanwhile you fret and worry, feel unhappy—and accomplish nothing. Why do it, when it is easy to clear up your blood by taking Pepto-Mangan for a while? For thirty years, doctors have been recommending this effective and agreeable tonic to purify and build up the blood of run-down, listless people.

Feel your best. Have a fine color and spring in your step. Be vigorous, happy, red-blooded. Get a bottle of Pepto-Mangan to-day. The nearest druggist has it, and in either liquid or tablet form, just as you prefer. There's no difference in medicinal value.

But be sure you get the genuine Gude's Pepto-Mangan. Ask for it by that name—"Gude's Pepto-Mangan," and be sure the full name is on the package.—Advertisement. (adv)

### CATARRHAL DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness. Circulars free. All Druggists, 75c.

## LIFT CORNS OFF IT DOESN'T HURT

With fingers! Corns lift out and costs only few cents

Pain? No, not one bit! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift that bothersome corn right off. Yes, magic! Costs only a few cents.

Try Freezone! Your druggist sells a tiny bottle, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the mysterious ether discovery of a Cincinnati genius. (adv)

### Did She Mean Just That?

"I want you to forget that I told you I didn't mean what I said about not taking back my refusal to change my mind. I've been thinking it over, and I've decided that I was wrong in the first place." The Man—"You don't really mean that, do you, Dolly?"—London Mail.

### HOW DIPHTHERIA IS CONTRACTED

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of school and keep him off the street until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted. (adv)

### BOURBON FARMING CONDITIONS

Tobacco beds on a thousand hill sides attest the progress made by the farmers of Bourbon county in getting ahead with their work. The beds have now been sown, and the white-sheeted spots dot every hillside.

Spring plowing is well under way and the farmers have taken advantage of every "dry" day to send their teams and tractors through the fields turning the soil in preparation for planting the spring crops.

Reports from some farmers indicate that the acreage of tobacco will be considerably reduced for the 1920 crop, while others say that every effort will be made to increase if possible the amount of land to be given to cultivation of the soothing weed. Growers do not seem to put much faith in the possibility of an anti-tobacco campaign, and are going ahead with their preparations regardless of what may happen.

Grass and pasture lands have come out wonderfully during the past few days. Light rains and warm winds have helped to a large extent to bring up the growth. Country produce and livestock continue to sell well and seem to command a ready market.

A shortage of farm labor is threatened by reason of the fact that a large number of laborers have moved to industrial centers to engage in factory work.
